

Congratulations!

Your web site has won our **Top Local Site** award for providing outstanding local Real Estate content.

We believe local Real Estate markets are best served by the Real Estate professionals that actually live and work in the area their web site represents. This award is designed to recognize these professionals and the valuable services they provide their community.

Please take note that this award is unlike others you may have encountered. By that we mean that this award has no costs or obligations, such as having to join a directory, being added to an e-mail list, taking part in link-exchanges, and so on. The award is simply yours to show off on your site---**so go ahead, you've earned it!**

Your award will appear on your site just like below:

To place your award on your site, simply paste the following code on to your web site's Home Page:
